Seen & Heard Around Murray

Now comes Mr. Elisha Williams who lives down near the Irvin Cobb. He tells us the story about a young fellow some time ago who went rabbit hunting. He goes off across a field with a double barrel shotgun on his shoulder all primed to get himself a rabbit. The dogs ran a rabbit into a hollow log but he still wanted to shoot a rabbit, so he just felt up in the log, pulled the rabbit out and staked him out to a tree with the galluses of his overalls. He walks off a little distance and fires away at the rabbit, but succeeded in only hitting the galluses which tied the rabbit to the tree and the rabbit took off to parts unknown. The fellow in later years described this as the first rabbit he ever killed.

Heard about a fellow who fell from a ten story building but was not hurt because he had on a light fall suit.

L&N Magazine had the following: "Strutting around on Easter morning, a rooster spied a basket of brightly colored eggs. He shook his head, thought a while — then made a beeline across the barnyard and kicked the daylight out of the peacock."

44,663 automobiles were stolen in New York during the first nine months of this year; 23, 621 in Los Angeles, and 13,053 in San Francisco.

It's about time to get yourself an Amaryllis bulb which you plant in a pot and keep in the house. Kroger, over in Paris, has them each year. We don't know whether anybody locally carries them or not. Anyway, they have enormous blooms on them which are a joy to behold and serve as harbingers of things to come in the Spring. When they get through blooming, stick them out in a flower bed somewhere, preferably

Letter To Editor

Fellow West Kentuckians:
Located in nearby Graves County is one of the wonders of Western Kentucky. Apparently few people in this area are aware of its existence, but many of those who have visited it share with my family and I the sheer enjoyment of having been there.

I refer to the Oldtime Village, approximately 3 miles east-southeast of Mayfield on Central Road. Begun in 1960 by Mr. and Mrs. Earl Cartwright, this Village rolls back the pages of time to around the turn of the century. The buildings there consist of the Old Country General Store, stocked to the hilt with merchandise of by-gone days and featuring the old pot-bellied stove and cracker barrel, characteristic of such stores in those times. A restored player piano in the store vigorously plays familiar, beloved old-time tunes.

Then there's the Old Homeplace, replica of the houses built some 75-100 years ago. It has been furnished with antique furniture and depicts a

Retail Sales In Calloway Show Increase Of 39% In Four Years

(Special to the Ledger & Times)
NEW YORK — Some indication of the economic growth that has been taking place in Calloway County in recent years comes from the government's new Census of Business.

The survey, which concerns itself primarily with retail business development since 1963, when the previous survey was conducted, shows that there was a 38.7 percent rise in sales locally in the subsequent four-year period.

The progress that was made in this direction exceeded expectation. It was believed that the war in Vietnam, the tensions on the domestic scene, the increase in taxes and the rising cost of living would have caused consumers to cut down appreciably on their spending. Nothing seems to have stopped them, however.

As a result, the sales volume in local retail stores rose \$10,655,000 in the four years. Part of this increase was due, of course, to higher prices for merchandise.

Calloway County's 38.7 percent rise compared favorably with the rise chalked up in many sections of the nation. In the United States it was 27.0 percent and in the State of Kentucky, 25.5 percent.

President's Vietnamization Of War To Continue At Steady Pace

by STEWART HENSLEY
UPI Diplomatic Reporter
WASHINGTON (UPI) — In announcing plans to withdraw another 50,000 American soldiers from Vietnam, President Nixon has underlined his determination to proceed with "Vietnamization" of the war at a steady pace unless there is some major upsurge in Communist activity.

Nixon however raised one ominous warning flag during his otherwise optimistic review

will increase as further American troops are pulled out, and the President left himself an escape hatch. He said that if the enemy tried to take advantage of the situation, taking action that would "jeopardize our remaining forces, I shall not hesitate to take strong measures."

Nixon however raised one ominous warning flag during his otherwise optimistic review

Richard M. Nixon

for the American people Monday night. He reported a "disturbing new development" — Communist infiltration has "increased substantially" and is being carefully watched to see if Hanoi plans to take advantage of the U.S. withdrawal.

The Pentagon for several months has not released figures on Communist infiltration into South Vietnam, preferring instead to only say if the level of infiltration is up or down. At his news conference one week earlier, Nixon said recent infiltration figures "seem to have been inflated. The infiltration rate is not as great as we thought then. It is higher than it was a few months ago. It is still lower than it was a year ago."

Period To April Critical

The President said Hanoi and the Viet Cong did not yet appear capable of launching a major offensive. But he pinpointed the period until April 15 as a critical one in assessing the possible success of his plan to withdraw all American combat forces from Vietnam and eventually pull out all supporting troops.

The first quarter of the year, which includes the Buddhist New Year Tet holidays, traditionally has been the time when the Communists have launched major offensives.

When former Defense Secretary Clark M. Clifford wrote last summer the United States should withdraw "about 100,000 troops before the end of this year," the President said that he hoped to beat this figure. He did not exactly beat Clifford's timetable but his announcement that 115,000 will be out by April came close.

Nixon's fervently expressed gratitude for the congressional and public support of his program of "calculated risk" underlined, without his saying so, the fact that this support might well diminish if there is some major setback to the "Vietnamization" program.

Predecessors Victimized

The President appeared fully aware that his predecessors, in particular President Lyndon B. Johnson, were victimized by overly optimistic advisers who were proved wrong.

He noted he had called upon a non-American and previously critical expert, former British Brigadier Robert Thompson, to carry out an on the spot survey in Vietnam and report to him. The President said Thompson, who is credited with having engineered the British cleanup campaign against the Communists in Malaya in the 1950s, told the President he had been "very impressed by the improvement in the military and political situation in Vietnam" since the time when he wrote that the United States and South Vietnam had little chance of securing the country. The risks involved in the "Vietnamization" of the war

Nixon Plan Criticized By Dr. Spock

Dr. Benjamin Spock, world famous pediatrician and recently convicted on a charge of counseling young men to avoid the draft, spoke to a crowd of about 500 persons, mostly students, at the Murray State University Auditorium last night. Dr. Spock said in his opening remarks that he believes the U.S. involvement in the Vietnam war is "illegal and immoral." He said that he believed the reason that the United States entered the Vietnam conflict was that Secretary of State, John Foster Dulles, persuaded Eisenhower in the early 50's that the U.S. could keep South Vietnam under democratic control by entering the war.

Dr. Spock criticized President Nixon's announcement of another troop pullout last night and said that "The President is trying to save face for his administration while at the same time attempting to keep down dissension in this country."

"There is no chance for a total victory for us in Vietnam," he continued. "It's going to take more than a slick new term like Vietnamization."

Spock gave a lengthy discussion on the right to dissent and said that dissent has become "more controversial in recent years." He gave as an example, the Democratic Convention in Chicago and said that the 8000 or so people who went to Chicago during the convention had a right to go there and that "Mayor Daly was wrong in refusing to grant them a parade permit and wrong in encouraging the police to beat up those people."

Spock outlined five steps that

Australia Will Withdraw 8,500

CANBERRA (UPI) — Prime Minister John Gorton said today Australia will withdraw some of its 8,500 men from South Vietnam to coincide with the pullout of additional U. S. forces.

Gorton's announcement, made as President Nixon announced Monday night the withdrawal of an additional 50,000 Americans by April 15, did not say how many Australians would come home.

The prime minister said he had Nixon's approval but set no date for the withdrawal. Gorton's announcement came as a surprise, for in June after the first U. S. withdrawal was announced, Gorton said he believed it would be a "wrong thing" to reduce the number of Australians.

The Australian force in Vietnam consists of about 7,500 ground troops, two squadrons of Canberra jet bombers, a guided missile destroyer serving with the U. S. 7th Fleet and other smaller units.

The latest figures show 329 Australians have been killed in Vietnam. Another 1,320 have been wounded. In Wellington, New Zealand, Prime Minister Keith Holyoake said he hoped some of New Zealand's 550 Vietnam troops could be brought home next year. The Philippines already has withdrawn its entire 1,500-man commitment.

What you should know about Christmas

THE original Christmas tree was a date-palm. Egyptians were the first to use such trees as symbols. The palm puts forth a shoot each month; a palm with 12 shoots signified a year completed. The Germans, with whom the Christmas tree came to this country, originally used pyramid-shaped fir trees in place of palm trees, which did not grow in Germany.

A smiling Dr. W. Frank Steely, new Northern Kentucky State College president, greets legislators at Butler Park.

BY DONNA McKEOWN
Kentucky Post Staff Writer

GENERAL BUTLER STATE PARK

Dr. W. Frank Steely, just 10 hours in his new job as president of Northern Kentucky State College, made his first official visit here last night to woo northern Kentucky legislators.

The visit evoked a solid endorsement from some of the men who will have to guide the infant college's budget through a thorny 1970 Legislature.

Dr. Steely, here for a mutual look-over session, told the lawmakers he will begin immediately to shape up NKSC.

HE SAID he plans to lobby by the college's needs in the upcoming Legislature.

And I would hope we could start building before it gets too hot this summer," he said.

He indicated this may be an over-anxious projection but still is a date to push for construction.

Dr. Steely made his remarks to eight northern Kentucky legislators, their wives, the NKSC regents and their families.

DRIVING FOR a united show of support come January in the Legislature, he emphasized northern Kentucky's need for a senior institution with these figures:

Only 40-some per cent of the tri-county area high school graduates go to college.

In Calloway County, Dr. Steely's birthplace and the location of Murray State University, more than 80 per cent attend college.

HE ASSURED them NKSC's \$4.3 million budget "is asking only for the bare necessities to make NKSC a going institution."

"I'm planning to talk to everyone I know (in the Legislature)," he said.

And he volunteered to talk with anyone legislators feel is necessary for the upcoming battle for funds.

ONCE THE college is funded, Dr. Steely plans to start building.

"We will be ready to receive the plans as soon as the property is ours," he said.

The search for architects already has begun, he added.

Dr. Steely and his family will be moving to northern Kentucky March 1.

"But I'll be shuttling back and forth beginning immediately," he said.

HIS NEXT trip will be Wednesday at the Northern Kentucky Chamber of Commerce meeting at 6:30 p.m. at Holiday Inn Riverfront, Covington.

Recruitment of faculty, considered to be one of Dr. Steely's strong points, will be top priority.

"I'm sure there are countless numbers of young professors who will just love to live in northern Kentucky," he said.

DURING THE past two years, Dr. Steely has been involved in a similar phasing—that of a two-year into a four-year college—at

Clinch Valley College, Wise, Va.

He was academic dean there.

That college is connected with the University of Virginia.

Following his speech, he skillfully maneuvered through questions which were old burrs in northern Kentucky sides.

CARL RUH, Democratic representative from Kenton County, questioned accessibility of the Highland Heights site.

Regents, more familiar with the geographic location, said that with the completion of I-471 and I-275, any place near an interstate would be within minutes of the college.

Traveling time from Uni-

versity of Kentucky Northern Community College to the new college would be two or three minutes, they said.

DAN ROBERTS, Democratic representative from Boone County, asked about the central location of the site and the method of selection.

He added that he supports the new college wholeheartedly but was a little "disappointed" Boone County was not selected.

"We've tried to make this thing as impartial as possible," Regent Ken Lucas explained.

"I DON'T REALLY see the purpose of having two centers," Dr. Steely said, indicating UKNCC would be phased out.

"Very impressed," was

the general reaction of legislators for Dr. Steely following the meeting.

Ruh said he appreciated the new president's easy manner in meeting people, a valuable asset to a man who will have to do some wheeling and dealing to push the college through.

DON JOHNSON, Republican senator from Campbell County, called him "an

excellent choice," and was equally enthused that Dr. Steely is not a "cold ivory tower" type of educator.

Art Schmidt, Republican representative from Campbell County, said:

"I'm really impressed with his enthusiasm. He seems anxious to get going and I think he'll be a real asset to northern Kentucky."

Senior guard Toke Coleman scored 21 points Monday night as Eastern Kentucky edged Morehead 87-79 in Ohio Valley Conference basketball action.

In nonconference contests, Duquesne routed Western Kentucky, 87-65; Tennessee Tech nipped Texas-Arlington, 98-92; Hardin-Simmons blasted Austin Peay, 106-87; Middle Tennessee edged Appalachian State, 53-50, and Murray topped Bradley, 72-60.

The Eastern Kentucky win gave the Colonels a tie with Murray for the OVC lead with 1-0 conference marks. Murray defeated Austin Peay in the only other conference game played to date.

Eastern, 2-3 over-all, led 43-41 at the half and pulled away in the closing minutes at Morehead. Morehead (3-2) was led by forward Jim Day with 23.

John Carmichael fired in 31 points and 7-0 center Art Bosnak added 23 as Tennessee Tech rallied from behind to stop Texas-Arlington.

Texas-Arlington, led by Sherman Evans with 32 points, led most of the second half until Bosnak hit a seven-foot jumper with seven minutes left to put the visitors on top 81-80. Duquesne (4-2) used a sagging zone defense to hold Western Kentucky's 7-0 Jim McDaniels to 18 points, 13 below his 31-point average, as it rolled past the Hilltoppers.

Jarrett Durham and Gary Nelson led Duquesne with 25 and 22 points, respectively. Jerome Perry paced the visiting Hilltoppers with 19 as Western Kentucky suffered its first defeat in six games.

Forward J. W. Fairman scored 28 points as Hardin-Simmons easily stopped touring Austin Peay. Guard Charles Simmons added 22 for the winners who now are 4-1 for the year.

Austin Peay (3-3) was led by guard Howard Wright with 16 and reserve Joe Murray with 14.

Middle Tennessee rallied from behind to down Appalachian State of North Carolina with guard Steve McElhane leading the way with 17 points.

Middle Tennessee (3-2) took the lead 51-50 with 17 seconds left when Ken Riley hit a field goal. Two free throws in the closing seconds off technical fouls led the contest for the homesteading Raiders.

There are no OVC teams in action tonight with Austin Peay at Pan-American and Middle Tennessee at Carson-Newman Wednesday night.

Kowall and John Canine to overcome a 49-45 halftime deficit. The Hoosiers had built up their first half advantage thanks to Jim Harris' 16 points and 15 more tossed in by Joe Cooke.

Kowall canned 21 points and Canine chipped in with 18 for the Bobcats who also received 17 points from Greg McDivitt. Kowall's three point play with 90 seconds remaining wrapped up Ohio University's win and offset the combined 49 point effort turned in by Cooke and Harris. Cooke led all scorers with 25.

S.C. Ups Record
Fourth-ranked South Carolina upped its record to 5-1 with an easy 101-68 conquest of outmanned Maryland as John Roche and Tom Owens teamed up for 56 points.

Roche canned nine field goals and all nine of his free throws for 27 points while the 6-foot-10 Owens was unstoppable from in close and hit for a game-high 29. A 12-1 spurt early in the contest gave South Carolina the lead for good and coach Frank McGuire's team just piled it on from there as McGuire kept his starters in until only two and a half minutes were left to play. Will Hetzel led Maryland with 18 points.

The night's biggest upset came at South Bend, Ind., where Kansas knocked off seventh-ranked Notre Dame, 75-63, and handed the Irish their first loss after five victories.

Dave Robisch scored 28 points and pulled down 13 rebounds to pace the Jayhawks to their fourth win in five outings. Kansas hit on 50 percent of its field goal attempts while Notre Dame came up with a cold hand, connecting on only 28 percent. Austin Carr's 25 points led the Irish who were without the services of regular center John Pleick who was sidelined with a sprained ankle.

Two Remains Unbeaten
Sixteenth-ranked St. Bonaventure and 20th-ranked Houston had little difficulty remaining unbeaten. Bob Lanier tallied 29 points, including 20 in the first half, to pace St. Bonaventure past Detroit, 97-68, while Ollie Taylor's 29 points helped Houston knock off Loyola of California, 116-91.

Henry Harris, Auburn's first Negro athlete, poured in 21 points for the Tigers who beat Mississippi State, 94-66; Jarrett Durham scored 25 points for Duquesne as the Dukes defeated Western Kentucky, 87-65; Nebraska won its sixth game in seven outings by beating Northern Michigan, 92-68; reserve David Lawrence came off the bench to tally 23 points for Kansas State as the Wildcats beat Vanderbilt, 91-78, and Texas Tech rallied for an 85-80 triumph over Arizona.

In other major games, St. John's beat Georgetown (D.C.), 71-64; Murray State tripped Bradley, 72-60; Duke trimmed East Carolina, 80-65; Oklahoma topped Miami of Ohio, 71-57, and Denver beat Utah, 64-61.

SIGN CONTRACTS

LOS ANGELES (UPI)—Outfielder Jim Barberi and infielder-outfielder John Miller, both on the Los Angeles Dodgers' Spokane farm club roster last season, have signed two-year contracts to play with the Chunichi Dragons in Japan next season.

Kings Tie Stars

LOS ANGELES (UPI)—Ricky "Butch" Goring rammed in a short shot with 24 seconds remaining as the Los Angeles Kings salvaged a 4-4 tie with the Minnesota North Stars Monday night in the debut of new Kings Coach Johnny Wilson.

Minnesota's Ray Cullen scored a pair of goals in the final session with 5:39 to go to put the North Stars ahead by one.

But Goring, who had assisted on two other Kings' scores took a pass from another first year man Mike Corrigan, who was behind the net and shoved in a 3-footer past Cesar Maniago.

It was the third goal of the season for Goring. Los Angeles had taken a 3-2 lead midway through the second period on Bill Fleet's 17-footer before Cullen had slipped the North Stars ahead.

Bill Goldsworthy had notched the first two Minnesota goals on similar 15-foot breakaway shots, but rookie Corrigan had equalled the two goal effort by collecting his pair of red lighters within 80 seconds of each other in the second period. Both came on identical 20-foot fast breaks set up on passes by Goring.

The Kings played a hard checking game for new Coach Wilson who replaced Hal Laycoe earlier in the day. In addition, they outshot the North Stars, 38-30, to run their record to 5 wins 18 losses and two ties.

Chiefs Favored

LAS VEGAS, Nev. (UPI)—Kansas City was made a three-point favorite by oddsmakers Monday over the New York Jets in Saturday's American Football League playoff game at New York.

The Oakland Raiders were favored by 13 to beat the Houston Oilers Sunday's other AFL inter-division contest at Oakland.

Wilson Named New Coach Of Kings

INGLEWOOD, Calif. (UPI)—John Wilson, a guy who once played in 580 straight National Hockey League games, is going to have his perseverance tested.

Wilson, 40, was hired as the coach of the floundering Los Angeles Kings and Hal Laycoe was fired Monday.

Los Angeles was buried in the National Hockey League West's cellar with a 5-18-1 record going into a Monday night game with Minnesota here.

Former NHL defensive great Doug Harvey was named as Wilson's assistant. Laycoe will remain with the team as director of player personnel.

Wilson, coach of the Kings' Springfield team in the American Hockey League since 1967, may find his new job tougher than playing in 580 consecutive games.

MAKES PRO DEBUT

DETROIT (UPI)—Steve Mix, former University of Toledo scoring and rebounding star, makes his professional debut with the Detroit Pistons against Baltimore Friday.

Mix, who averaged 9.1 points a game in eight exhibition games prior to his call into service, will utilize his Christmash-furlough to play with Detroit.

Kentucky Holds Number One But UCLA Is Close Behind

NEW YORK (UPI)—Kentucky and UCLA, each having lost a star in the off-season, still show no apparent signs of weakness as they battle for the No. 1 ranking among college basketball teams.

Kentucky, which lost Mike Casey's services when he was injured in an automobile accident, barely edged the Bruins, playing for the first time in three years without All-America Lew Alcindor, in the second weekly balloting by the 35-member United Press International Board of Coaches.

Kentucky, unbeaten in four games, received 18 first place votes and 326 points, just three more than UCLA, which had 15 first place votes and 323 points.

New Mexico State (6-0) took the other two first-place votes and finished third while South Carolina and Southern California tied for fourth. Davidson was sixth, with Notre Dame, Santa Clara, North Carolina and Villanova completing the top 10.

Five coaches from each of

the seven geographical areas of the nation comprise the UPI ratings board. Each week they select the top 10 college basketball teams with points awarded on a 10-9-8-7-6-5-4-3-2-1 basis on vote from first through 10th.

WILL MISS GAME

NEW YORK (UPI)—X-rays on John Dockery's left shoulder Monday did not reveal any break, but the New York Jets announced the left cornerback will miss next Saturday's American Football League playoff game with Kansas City because of a shoulder separation incurred during Sunday's game with Miami. He will be replaced by Cornell Gordon.

Sports Parade

By MILTON RICHMAN
UPI Sports Writer

NEW YORK (UPI)—When you get right down to it, the Los Angeles Rams are right.

They say the game didn't settle anything. Certainly Sunday's "big" one in which the Minnesota Vikings shot down the Rams, 20-13, and ended their gaudy 11-game winning streak didn't do much about giving anybody a real line on the eventual Super Bowl winner. If you sit down and figure out the whole business you'll see where even the so-so second-place Houston Oilers, with their less than inspiring 5-6-2 showing, still could wind up with the whole box of crullers.

The Vikings, naturally, have ample reason to feel good about beating the Rams before 80,430 in the Los Angeles Coliseum. It always makes you feel good when you beat the other guy on his turf. It makes you feel even better knowing your next date with him will be on your own turf where there'll be far more at stake. There will be when the Vikes and Rams lock horns again for the NFL's Western Conference title in Bloomington, Minn., the 27th of this month.

Vice President Spiro T. Agnew nearly blew it all in the Coliseum Sunday. He was among those 80,430 and left a couple of minutes before the game was over. All Roman Gabriel had to do was hit on one, long, short or in-between, and the score conceivably might have been 20-20 at the finish with the vice president already on his way home thinking Minnesota had won.

The Rams see no particular reason for feeling all is lost. Offensive lines somehow don't do twice running what Minnesota did to the Rams Sunday and great as Ron Yary is, he figures to meet an entirely different reception next time.

Did Tremendous Job
There can be no arguing the fact the Vikings' offensive line did a tremendous job, the kind of job that elicited special praise from Joe Kapp, and Earsell Mackbee's spectacular one-handed interception near the end of the third period is one they'll talk about a long time, too, but the Rams still can muster a number of talking points.

The statistics for one. There wasn't that much difference, and if there was any at all it was on the side of the Rams. Each club had the same number of first downs, 15, and any advantage the Vikings had on the ground, 177 yards to 61, the Rams more than made up in the air, with 186 to 72.

Special guests were husbands of the members.

Mrs. Olivene Erwin and Mrs. Lurene Cooper were in charge of the program. "Joy to the World" was sung by the group with Mrs. Erwin at the piano.

An inspirational devotion was given by Mrs. Erwin reading her scripture from Isaiah 9:2-7 and Luke 2:8-20 followed with prayer.

Jan, Christie, and Sarah Cooper sang "Angels We Have Heard On High" and "In Bethlehem 'Neath the Starlit Skies".

Mrs. Lurene Cooper gave a beautiful story of a "Love Letter From God" followed with group singing of "Silent Night". Mrs. Cooper led in prayer.

The program was closed with the Cooper sisters singing "Walking In A Winter Wonderland". Gifts were exchanged from the beautiful Christmas tree.

The business was conducted by Mrs. Imogene Paschall and the minutes were read by the secretary, Mrs. Clovis Brown.

Mrs. Esther Gooch and Mrs. Katherine Rickman, treasurers, gave their reports.

Dear Abby

Office parties aren't mandatory!

By Abigail Van Buren

DEAR ABBY: With another Christmas season coming on, the same old problem to many of us wives is "the Christmas office party."

After quite a few years, I realize now, it's not the MEN, it's the WOMEN who promote these affairs. I honestly believe that most of the men don't care for these office parties, but the women engineer everything. They get the men to sign up for the catered lunch which now begins at 11:30 A.M. and goes on forever. They get them to agree to exchanging 50c gifts. Anything, just to get them to commit themselves.

These men are afraid NOT to go because the other men will say they are henpecked.

I'd like to know your opinion of this, Abby.

HOME ALONE

DEAR HOME: More and more large companies are making Christmas parties a "family affair." Married employees are free to bring their spouses, and single ones may bring a "date." In offices where mates and dates are not welcome, you can be sure a vote was taken, and the majority ruled. No one is forced to go to an office party. And that "henpecked" excuse is a good excuse for a chicken.

DEAR ABBY: My husband owns his own business and he can make his own schedule, so I know that he could arrange to be home with me for Christmas and New Years if he really wanted to, but now he is giving me this story about how he has to go away "on business" over the holidays. Should I believe that he really HAS to be gone then?

BARBARA

DEAR BARBARA: Yes, if his name is Santa Claus.

DEAR ABBY: Here is the situation. The father is a professional man who is not always able to have dinner with his family. So when he comes home around 8 p.m. or 9 p.m., should his 15-year-old daughter call "Hello" from her bedroom? Or to show respect, should she come down and say hello to him face to face? And if she doesn't come out of her room for the next half hour or so, would you say she was not showing proper respect?

NAMELESS

DEAR NAMELESS: Don't confuse "respect" with obedience. Children can be "trained" to obey an order, which may give the illusion of "respect," but the only respect that means anything is that which is earned. Since Papa is obviously annoyed because Daughter doesn't give him a more affectionate welcome home, somebody [like Mama] should wise her up without making a big deal out of it.

CONFIDENTIAL TO ANYONE WHO NEEDS A HOLIDAY GIFT SUGGESTION FOR A YOUNG MAN BETWEEN THE AGES OF NINE AND NINETEEN: There's a great little book by Marjabelle Young and Ann Buchwald, titled "STAND UP, SHAKE HANDS, SAY HOW DO YOU DO." It's tops on tips for ordering in a restaurant, introducing people properly, table manners, dating etiquette, grooming, and the whole bit on how to be a gentleman without being a sissy. I recommend it highly.

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Cal. 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Cal. 90069.

Bill Aimed At Slowing Down Desegregation Approved Today

By WILLIAM B. MEAD

WASHINGTON (UPI) — Southern senators seeking to slow federal school desegregation efforts won a thumping preliminary victory today.

By a vote of 13 to 8, the Senate Appropriations Committee approved a slightly modified version of a House-passed provision aimed at blunting a strong federal desegregation weapon—the threat to cut off school aid money.

Approved were proposals to stop the Department of Health, Education and Welfare (HEW) from cutting off funds to school districts which refused to bus students, and to stipulate that districts could not be denied federal funds for using “freedom of choice” school assign-

38-Year-Old Paducahan Electrocuted

A 38-year-old nursery firm employee was electrocuted about noon Monday while working at the George Crounse residence, 105 Spcamore St.

The victim was identified as James H. Collins, 38, 1001 Burnett St., according to McCracken County coroner John Barker.

Barker, after investigating the accident, gave the following account.

—Collins, an employee of Gramme Nursery, and Hugo Ullrich, a partner in the nursery firm, were pruning a holly tree at the Crounse home. The men were using a metal ladder to cut back the branches in shaping the tree.

—The men were moving the ladder around the tree when it came in contact with a power line.

—Ullrich happened to be looking up and saw the electricity arc from the power line to the ladder, although he did not feel the charge. Ullrich asked Collins if he felt the shock and Collins said he had. Ullrich was protected because he was wearing rubber boots.

—The men started to put down the ladder and Collins collapsed.

Barker said Collins was rushed to Western Baptist Hospital. He was pronounced dead at the hospital at 12:40 p.m.

Barker said he would not hold an inquest, but would write a verdict of “accidental death by electrocution.”

Collins’ body was taken to Mundy Funeral Home. Funeral arrangements are incomplete at this time.

where they are protected, and they do pretty good outdoor.

The Weaps that built the nest above the utility room door are all gone. Cold weather got them. We don’t know where they went. We noticed the first few days of cold weather they were almost immobilized, but remained on the nest. Then they just disappeared. We never found any on the carport floor.

Ever wonder what these demonstrations cost in large cities? The three day anti-war demonstration, which was termed peaceful, cost the taxpayers over \$1.5 million dollars and private business an estimated \$240,000. In addition 606 persons were injured and 361 arrested. In the aftermath of the demonstrations, 503 local business firms placed orders for replacement of broken window panes. In twenty government buildings, 111 windows were broken. Damage of up to \$12,000 was done to U.S. parks property and \$6,000 damage to law enforcement vehicles. The two most expensive items in the total costs to taxpayers were standby military support of civil authority, \$936,088 and \$475,776 for overtime pay for members of the three major metropolitan area police departments.

Rep. John J. Duncan of Tennessee has been joined by over fifty House members including Democrats and Republicans, who have endorsed his bill to restrict using names of dead servicemen in peace demonstrations. The bill would make it a crime for demonstrators to use a name of a serviceman killed in combat since August 5, 1964, without consent of his next of kin.

family scene of that era. The aroma of food cooking on the old wood stove and wood burning in the fireplace add to the atmosphere that mentally carries many a visitor back to times of childhood.

There’s more, much more to see in the Christmas-lighted old town than news space permits — the nativity scene, the old Country Church with the minister preaching away from behind his pulpit, a jewelry store, barber shop, general practitioner’s office, dental office, post office and others, all constructed of logs and stocked with artifacts of the era depicted.

Live, wild animals in abundant supply add to the old-time atmosphere, too.

This is not a commercial venture. No charge is made to tour the Village. But if you feel led to make a contribution toward expanding and maintaining the facilities, drop yours in the Old Village Well on your way out. No one will be standing by to “influence” your decision.

The Cartwright’s open the Old Village around mid-December of each year and close it at 10 p.m. on New Years eve. Week days it’s open from 9:30 a.m. to 10 p.m., and on Sunday afternoons and evenings until 10:00. But remember, when it closes on New Years eve, it will remain so until around mid-December of next year.

If you haven’t toured the Village, take your family and go see it. Young or old, you’ll be glad you did! And if you have been there in years past, you may want to go again. Year by year the Cartwright’s have added to the historic-type town.

Sincerely,
Lloyd Jacks

P. S. Here’s one way to get there. From Murray, travel Highway 121 and turn left on College Street in Mayfield. Then go to South 10th Street where you’ll want to make another left turn. Drive straight out South 10th, which becomes Central Road at the City Limits, to the Old Village. Just before you get there you’ll come to a fork in the road. Keep straight ahead, don’t veer off to the right.

Wall Street Chatter

NEW YORK (UPI)—The market is down more than 20 per cent in 1969 and, aside from rallies in May and October, has been on the defensive throughout the year. Bache & Co. observes, in essence, it has been assuming a less fanciful and more realistic position with regard to the economic realities from 1970 Bache adds, and any downward move from current levels is unlikely to be severe.

Though the past few weeks have been bearish for the market, “it seems most constructive to take a neutral, rather than negative, outlook,” E. F. Hutton & Co. says. During last week’s and this week’s decline the market has continued in an oversold condition, and “it is difficult to foresee an extensive decline while it remains in this state,” the firm points out.

The Dines Letter sees “almost a technical certainty that we are going to get a rally” considering the deeply oversold condition of the market. It is too soon to tell whether it will be the beginning of a new bull market, the firm feels, “but the next important move looks up.” Switching for the purposes of bargain-hunting is a very poor policy, at least over the short term, because stocks that were depressed going into December are getting even more so, while those that are up near their highs will most likely climb even higher, the analyst adds.

Popular Vote To Decide Fate Of US-Japan Security Treaty

By ROBERT CRABBE

TOKYO (UPI)—Japan's 69.6 million registered voters will decide Dec. 27 whether their nation is to join the United States as a full partner in the defense of Asia.

The decision was forced by Prime Minister Eisaku Sato, a conservative politician with a knack for winning the confidence of Washington and Wall Street.

On Sato's orders, Emperor Hirohito dissolved the 486-seat lower house of the Japanese Parliament earlier this month and called a general election. Sato asked the Japanese people to return his Liberal-Democratic Party (LDP) to power for four more years. In a final speech before the diet, Sato said he wants to renew the U.S.-Japan security treaty next year.

Although the U.S. State Department would be the first to deny that America is trying to play a role in a Japanese election, U.S. interest in Sato's welfare is clear.

The LDP, which has ruled Japan without a break since 1948, is the only party in Japan that advocates all-out alignment with U.S. foreign policy. It is also the only one that U.S. government trusts completely.

The opposition consists of four smaller parties, whose foreign policy stances range from neutrality to outright alignment with communism. If they won enough seats in parliament to form a coalition government, they would almost certainly begin phasing out the U.S.-Japan security treaty. They could deny the U.S. 7th Fleet its big bases at Yokosuka and Sasebo, and close down the U.S. Air Force's installations at Yokota and Tachikawa. All are vital for the maintenance of the U.S. defense commitments to

Japan, Korea and other Asian nations.

The problem for Sato—and the United States—is that the Liberal-Democratic party has been losing favor with the Japanese voters for the last 10 years.

Bangup New Year

PAGO PAGO, American Samoa (UPI)—Residents of this U.S. territory usher in the New Year with fireworks. At midnight Dec. 31 heads of families step outside their homes and fire shotgun blasts into the air.

By VERNON SCOTT
UPI Hollywood Correspondent

HOLLYWOOD (UPI)—Rudolf Friml, 90 years old Sunday, sat at one of two grand pianos in his living room and riddled through a melodic five minutes of improvised composition.

The composer of 30 operettas, including "Rose Marie," "The Vagabond King" and "Firefly," Friml approached his 90th year bright of eye, spry of foot and dubious about living to be 100. "I'm happy to have reached 90," he said in a voice untrembled by almost a century of vigorous work. "But my kind of music is out."

"The future of music is unmelodious. I've done my share and I'm satisfied to go before I reach 100."

Live On Highest Peak
Friml and his fourth wife, Kay, whom he married 32 years ago in Hong Kong, live on the highest peak of the Santa Monica Mountains with the Pacific Ocean and all of Los Angeles sweeping out before them.

In the sun-splashed patio Friml appeared nearer 80 than 90. He is in excellent health and his eyes are so good he doesn't wear glasses.

He speaks out firmly and adamantly against today's music, blaming public taste as much as current composers for its low estate.

Friml's last operetta was "Annie" in 1934. A year or two earlier he wrote the hit operetta "Bird of Paradise." Today's musicals—"Hello, Dolly," "Mame" and "Funny Girl"—he dismisses as trash.

"Real love stories and

WASHINGTON - Senate Democratic Leader Mike Mansfield, during debate before the Senate voted to keep American combat troops from Laos or Thailand: "One Korea is more than enough; one Vietnam is more than enough."

WASHINGTON - Sen. Charles E. Goodell, R-N.Y., criticizing President Nixon's plans to withdraw 50,800 more troops from Vietnam: "The President's announcement confirms what I have said in the past, that the timing of American withdrawal from Vietnam remains tragically at the mercy of both the Hanoi and Saigon governments. I remain steadfast in my views that all American troops should be withdrawn by December, 1970."

WASHINGTON - Sen. George Murphy, R-Calif., speaking in support of the President: "Once again our President has shown the American people he intends to carry out his pledge to bring an honorable and just conclusion to the tragic and costly war in Vietnam."

CHICAGO - Mrs. Ruth M. Migdal, an assistant professor of art at Malcolm X College, testifying for the defense in the trial of the "Chicago Seven" about violence at the Democratic National Convention in August, 1968: "I saw red-faced police wearing short-sleeve shirts and blue helmets pour out of the bus. They were chanting 'kill, kill, kill.'"

romance are considered old fashioned," he said without rancor. "Audiences today were brought up on the wrong side of the musical tracks."

All Four-Four Time
"Modern music is all one beat accompaniment in four-four time. I feel sorry for the new generation because they are missing many wonderful things."

The discipline which makes great musicians remains with Friml. He spends six hours every day at the piano, taping his extemporaneous compositions for future generations.

Among modern composers Friml singled out the Russians, Shostakovich and Khatchaturian, Brazilian Villa Lobos and American Aaron Copeland.

"They are serious composers. Their music will live and be remembered."

So, apparently, will much of Friml's work which set a musical pace for the first half

of this century. It was light, romantic and, somehow, innocent.

Belgian proposal on scholarships

BRUSSELS (UPI)—A bill pending in the Belgian parliament proposes continuation of the Fulbright Scholarship agreement on a reciprocally financed basis after it expires in 1970.

The 1948 Fulbright agreement converted Belgian war debts to the United States into a gift on condition the funds be used for the exchange of American and Belgian students, teachers and researchers. In 20 years, 700 Belgians and 400 Americans were exchanged before the funds ran out this year.

PORT-AU-PRINCE, Haiti (UPI)—Haiti has a population of nearly 4 million persons, all squeezed into a mountainous terrain no larger than Maryland, or about 10,700 square miles.
